

Guide for pace-apps users

GENERALITIES

1. Login to the pace-apps

Login help page: <https://pace.coe.int/en/pages/online-authentication>

The Table Office, committee secretaries and political group secretaries login with their email address ending in ...coe.int. The password is their current system password.

Parliamentary members and national delegation secretaries login using a personal email address, previously supplied to it.unit – and need to follow a registration procedure for their password upon initial connection.

2. Introduction to the home page

A. A different home page for each profile, associated with the rôle within the Assembly.

– Table Office

Access to applications: diary, registration lists, members' photos, Hemicycle layout, electronic vote

– Committee secretariat

Access to applications: diary, registration lists

– Political group secretariat

Access to applications: diary, registration lists

– National delegation secretariat (login with non-coe.int personal email address)

Access to applications: declarations of interests, registration lists

– Parliamentary Member (login with non-coe.int personal email address)

Access to applications: declarations of interests, Identity label

B. Access for all to the internal diary and direct registration on open participation lists

All users have the internal diary shown on their home page – more complete than that available on the public site – and the ability to register in open registration lists.

This should not be confused with access to applications allowing modification of the diary or creation of a new registration list.
